Gaming Joystick

DA-70071
EAN 4016032310433

This Joystick gives you the ultimate control over any game with a virtual joystick

Do you miss your gaming console? This product gives you the feeling of an analog joystick. And transforms your Tablet PC into a mobile gaming console. So you have much more precision in your games and can not miss the area of ??control. Once the display is lit, melts the DIGITUS Gaming Joystick as a unit on your Tablet PC and is almost invisible, so you will never miss any action on the screen.

- Auto-centering for maximum control over your game
- Transparent design provides an unrestricted view of all the incoming action
- Quick and easy suction cup attachment
- Manufactured from an incredibly tough, but still flexible resin
